High flexibility and efficiency - the reel spindle easily carries and rotates reels in the vertical position and horizontal position.

The reel spindle, with the quick shift system, can readily be fitted on all Logiflex models with an adjustable carriage. Furthermore the reel spindle can easily be exchanged with Logitrans fork options and optional extras.

A wide range of optional extras ensures an optimum utilisation of the Logiflex - the same Logiflex can be fitted with a crane arm, boom, platform and drum turner.
