

Vacuum lifter - Easyhand T

The extended arm for speedy lifting!

The Easyhand is an easy-to-use and fast vacuum lifter which can be worked with one hand to handle loads up to 45 kg.

It can be manoeuvred easily and with precision with either the left or right hand.

The Easyhand has, as standard, in-built swivel and 90° tilt function.

The “kick-off” function enables the load to be easily released via the release button.

The “at rest” position is easily adjusted via an adjustment screw.

The Easyhand is available in several different standard versions and can be supplied with a vacuum pump or an ejector kit as the “driving” package.

- ✓ Quick
- ✓ Simple
- ✓ Effective

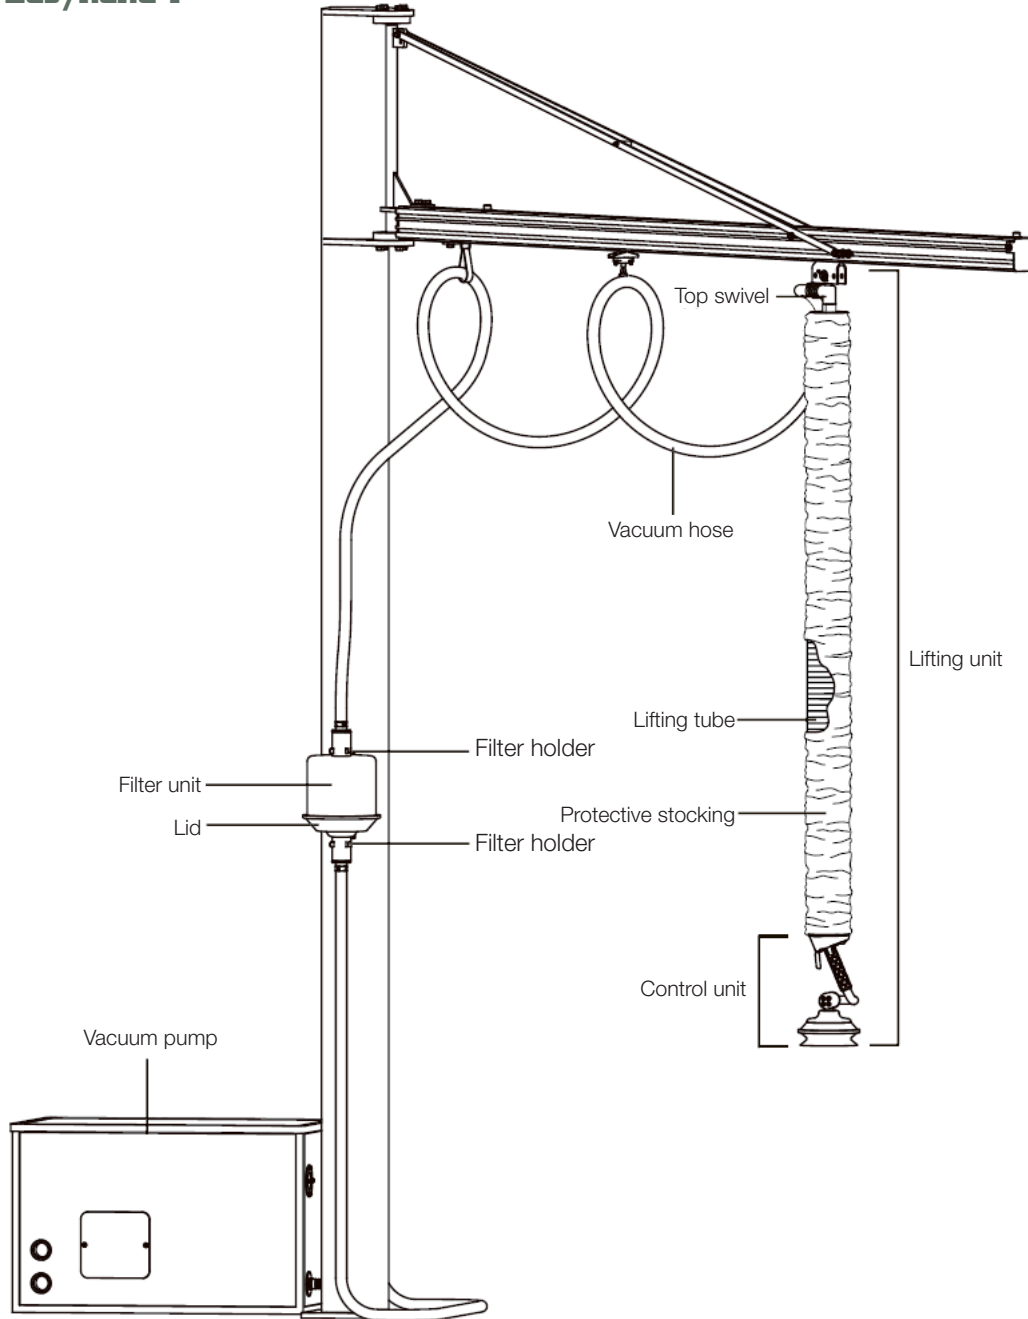

The Easyhand is an operator-friendly and effective vacuum lifter for fast handling of cartons, sacks, board materials etc.

The Easyhand can easily be equipped and fitted with different types of lifting gripping heads but also be amended to meet specific needs and requirements.
