INSIGHT Visibility

Software to ensure your shop floor is production ready! Configure, monitor & track large ProGlove device fleets.

Remote Updates

Spend less time configuring & updating device fleets & more time improving the performance of your ProGlove scanners, Gateways & mobile devices. Remote updates make applying configurations to large groups of devices easier. Conveniently schedule updates between shifts & avoid shift interruptions & down time all together - with just the push of a button!

Device Monitoring

Ensure your device fleet is ready at the start of every shift! View all critical metadata, device usage and battery charging status from a single dashboard. Or enhance your view even more by integrating INSIGHT within your existing MDM system.

Lost & Found

Keep track of devices & see your productivity increase with every shift. Find lost devices & avoid scanner replacement costs all together! Easily track where devices are, which are in use, inactive or in the charger.

Free with every ProGlove wearable scanner

INSIGHT Standard

• Create your INSIGHT account
• Manually configure Scanners, Gateways, Mobile applications
• Deploy with the latest downloads

Upgrade for more advanced features!
